

SOLAR

The SOLAR from CDVI is a standard proximity card reader.

These stylish new readers are available in both black and white. As with the other readers from the range (NANO, STAR and MOONAR), the SOLAR gives an anytime status of the door through multi-coloured LED's.

These access control readers have a high performance read range and are easy to mount. The SOLAR is also a 125kHz proximity vandal proof reader.

With an innovative design and a low power consumption, the SOLAR card reader is now available from CDVI.
