

## Datasheet

### ACCESSORIES/ EM301-LS - Resettable EDR with light and sounder

#### Product description

The range of emergency door releases (EDR's) from CDVI provide a physical method of unlocking an electronic lock in the event of an emergency.

They are generally fitted where there is no manual method to permanently release the fail safe locks, to remove the power when the EDR is activated.

The EM301-LS is a triple pole resettable EDR with light and sounder. Pressing on the front will cause the plate to drop, operating the micro switch. The plate will remain dropped until resetting by means of a key.

#### Key features

- Emergency unlock
- Triple-pole, resettable
- For internal use
- Adjustable for continuous intermittent LED/sounder

## Output Specifications

**3 x COM/NO/NC**

**Voltage:** 124Vac (max)

**Current:** 3A (max)

## Electrical Specifications

**Power supply:** 12 or 24Vdc

**Operating current:**

Standby: @12Vdc = 18mA,  
          @24Vdc = 11mA

Working: @12Vdc = 75mA,  
          @24Vdc = 41mA
